REASONS FOR ALLOWANCE

The instant invention is deemed to be directed to an unobvious improvement over the invention patented in U. S. Patent No. 5,065,509 to Sahashi. The improvement comprises a plurality of hollow steel tubes connected together side-by-side in an annular array wherein fluid may be carried through each tube from one end to another to form the fluid coupling member for the purposes of filling the gaps between the shells and the blades with 100 percent effectiveness to improve performance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

PRIOR ART

The patent to Sahashi is cited for the showing of a fluid coupling member similar to applicant's but lacking hollow tubes side-by-side.
